

# The Clammy™ 10”

Looks like just a clamshell,  
but it's so much more!

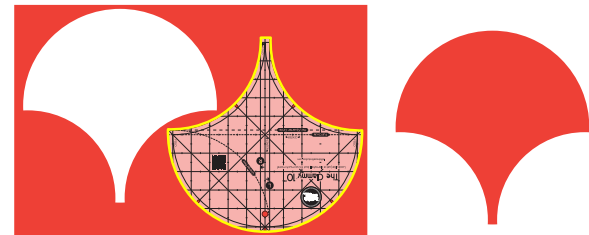

Check out the Latifah Saafir Studios YouTube channel for video tutorials.  
Use #theclammy and #latifahsaafirstudios when you post your projects online!

## Cutting Tips:

- Use a 28mm rotary cutter for easier and more accurate cutting.
- A rotating cutting mat can be helpful.

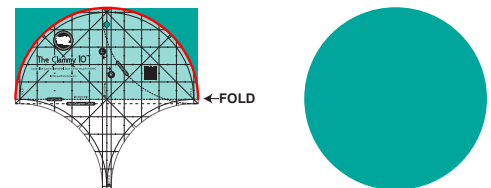

### Clamshell

Place **The Clammy™** on a piece of fabric **at least** 10½” square and cut around full perimeter of the template. When cutting multiple clamshells from larger pieces of non-directional fabric, maximize fabric usage by rotating template to cut the next shape.

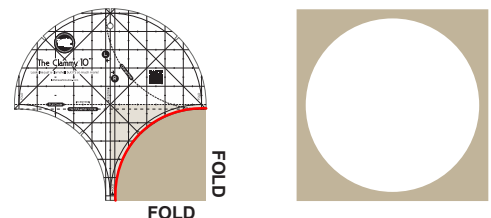

### Circle

Fold and press a 10½” fabric square in half. Place **The Clammy™** on top with the **Full Circle** line on the fold. Cut along upper curve. Open.

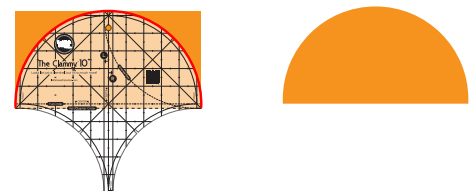

### Circle Background

Cut background **at least** 10½” wide x 10½” high. Fold and press in half in bold directions. Align the fabric fold with the **FOLD** lines on the tip and right side of **The Clammy™**. Cut along bottom right curve. Open.

### Half Circle

Align the **Half/Quarter Circle** line on the long edge of a 10½” wide x 5½” high” fabric piece. Cut along upper curve.

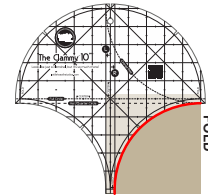

# The Clammy™ 10”

Looks like just a clamshell,  
but it's so much more!

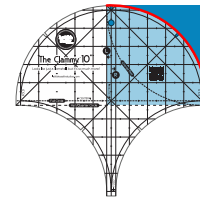

## Half Circle Background

Cut background fabric **at least** 10½” wide x 5½” high. Matching the short ends, fold and press in half. Align the fabric fold with the **FOLD** line on the right side of the template with tip touching bottom edge. Cut along bottom right curve. Open.

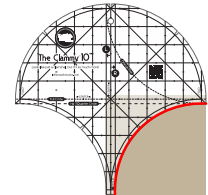

## Quarter Circle

Start with a 5½” fabric square. Align the **Half/Quarter Circle** line with the bottom edge and align the **L** on left side of square for a left corner Quarter Circle. Align the **R** on right side for a right corner Quarter Circle. Cut along curve.

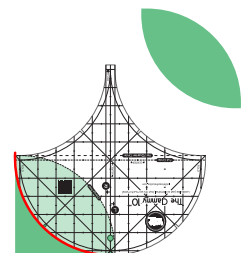

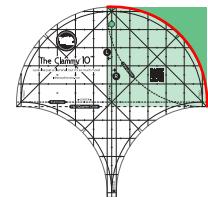

## Quarter Circle Background

Cut background shape **at least** 5½” wide x ½” high. Place **The Clammy™** on fabric with the side and tip touching the raw edges. Cut along highlighted curve. For a left corner Quarter Circle cut with wrong side up.

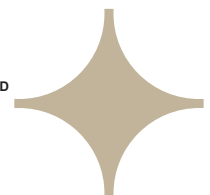

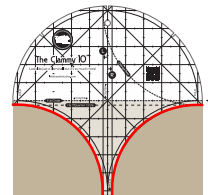

## Orange Peel

Start with a 5½” fabric square. Place **The Clammy™** so that the **Orange Peel** line is fully on the fabric. Cut along the outside curve. Rotate template and line up the **Orange Peel** line with the first cut. Cut again along the outside curve.

## Orange Peel Background - Full

Start with a 10½” background square. Fold in half. Align the **Orange Peel Background** line on the folded edge. Cut along bottom two curves. Open.

## Orange Peel Background - Single

Pair two 5½” fabric squares right sides together. Place **The Clammy™** on top with the side and tip touching the raw edges. Cut along highlighted curve.
